projects

jesswar.design
2020
Designed and created a responsive portfolio website. Website initially designed in Figma and developed in Webflow.

yawnch
2019
Created brand assets such as vector illustrations. I also provided design consultation.

Homegrown
2019
Designed a mobile app centered around making gardening easier and more efficient for users of varying experience. I also designed a responsive marketing website to correspond with the app.

experience

Kale's Nursery
2019 - 2020
Managed company's Instagram, including photography, editing, and content creation. I created the company's first Branding Guide, and created brand-appropriate assets. Provided consultation and feedback during marketing meetings.

Banana Republic
2018
Assisted head designer in development and management of Men's Accessories. Included sketching in Illustrator, use of PLM, developing colorways, participation in adoption meetings.

education

Fashion Institute of Technology
2011 - 2014
Bachelors of Fine Arts
Apparel Design
