Rocketmakers

ENGINE SHED

SCALE UP GENERATOR

Introduction

This is a snapshot of the Bristol and Bath startup & scale up support ecosystem, developed by Engine Shed and West of England Growth Hub and designed by Rocket-Makers. It highlights a selection of the organisations that support founders, employees, network builders, newcomers and interested people working in and with startup and scale up companies.

The accompanying AR app developed by RocketMakers helps users to better understand how to engage with these organisations and explore how collaborative and well-connected they are.

The list of 50+ organisations is not exhaustive, they are the ones that are mentioned most often and that we believe are most core to startup creation and scale up growth in the West of England. The map will be updated semi-annually so if you think we've missed something, please contact us.

What this is Not

This map is not designed to offer a comprehensive view of all the support available in the region – that just wouldn't look very pretty (or legible) on a single poster! If you'd like to see more, please visit:

wearegrowth.co.uk
The West of England Growth Hub

scaleupgenerator.co.uk
A map of 400+ support services for scale up businesses (usually from 10 employees upwards.

Categories

Incubator / Accelerator
An organisation that provides a combination of people, business development processes and infrastructure to support a select group of members and/or tenants.

Press / Events
An organisation that offers a newsletter and/or events which are open to the public.

Social Impact
An organisation which supports others to work towards social goals and impact.

Coworking Plus
A provider of office or desk space who actively provides broader support to enable business growth.

Investment
An organisation which offers financial investment or can directly facilitate financial investment for companies and founders.

Networks
An organisation which exists partly or wholly to facilitate connections between members or participants, and beyond.
