DESIGN SERVICE

The idea is to make an application for people who want to start dancing. Beginners, shy, who do not have the opportunity to go to dance classes.

I offer an overview on 3 different screens. This allows you to see the main functionality (dance's choice) and a secondary feature (badge and share).

BENCHMARK

My colors' inspiration are mostly shades of purple and blue which represent the concept of dream and hope. Shyness is represented by shades of pink. The gradient is for IOS.

My main inspirations are Duolingo or Spotify and find simple interaction for the user. My goal is to make information quickly findable and share progresses by getting badges.

The House dance contains many elements of African dance, Latin, Brazilian, jazz, tap, modern and even. Many hip-hop dancers became interested in house music in the early 80 and 90.
