

### **Abstract symbol**

People don't spend time looking for direct associations with things they know

### **Round shapes**

Comfortable, familiar curves feel safe and human

### **Sharp corners**

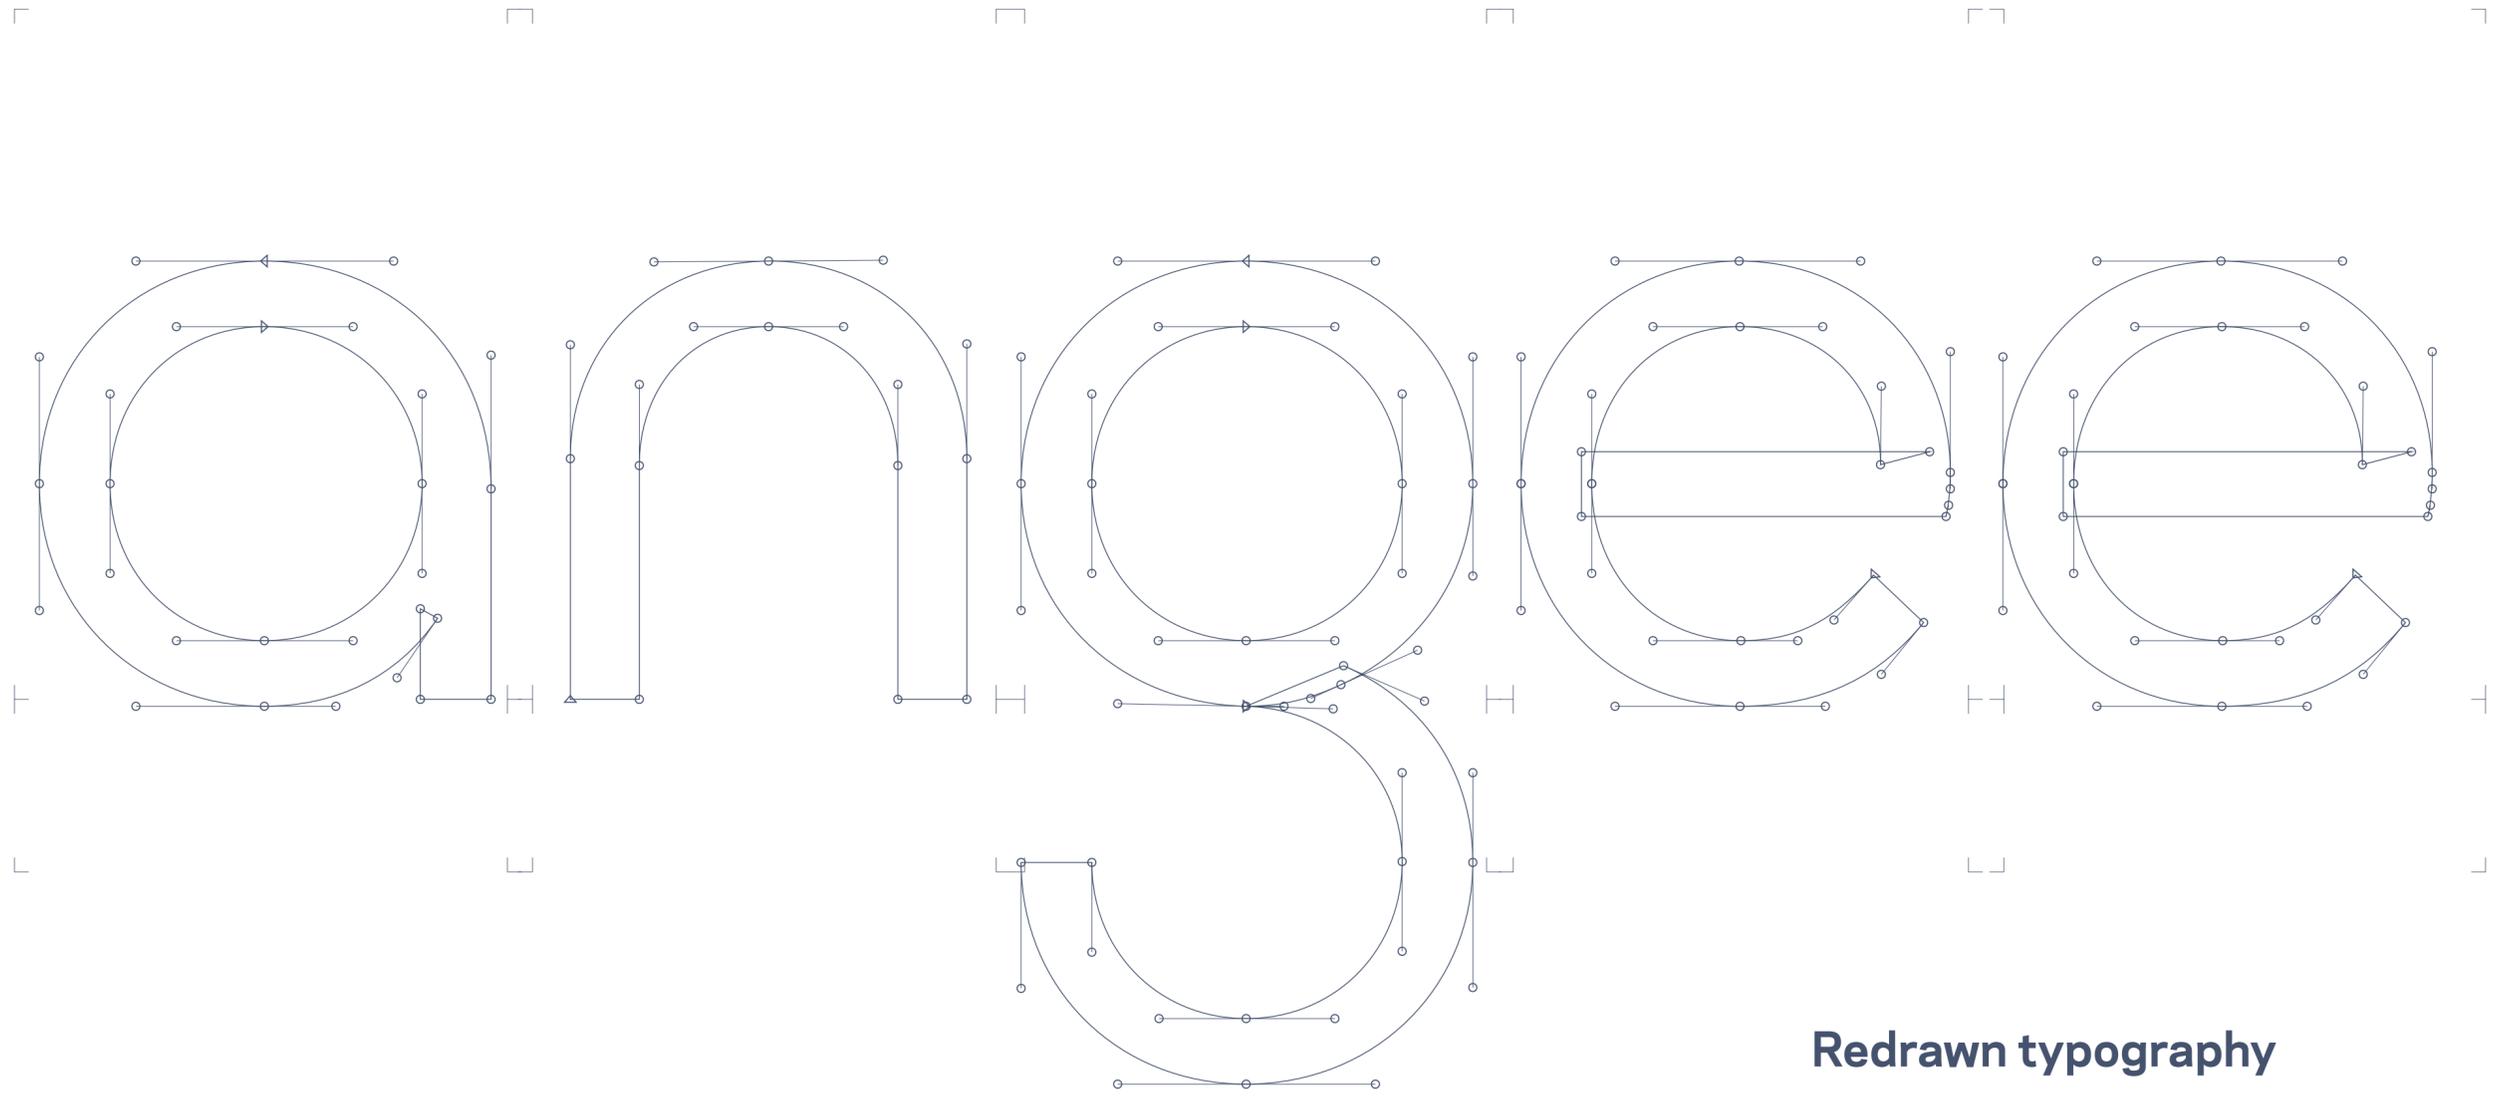

Straight edges evoke trust, security and power

Too evil

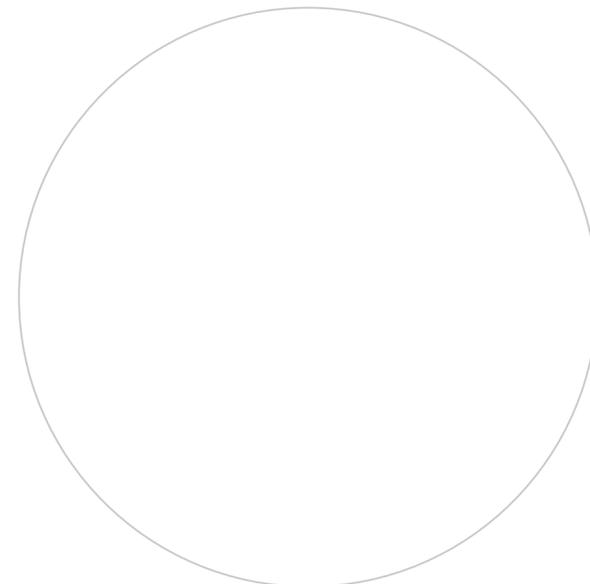

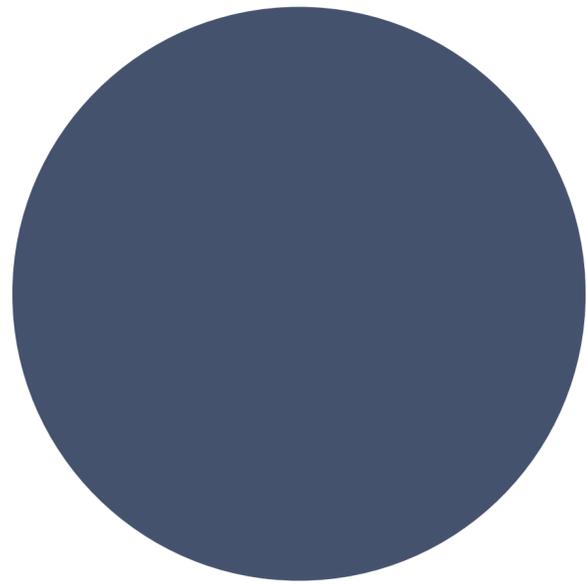

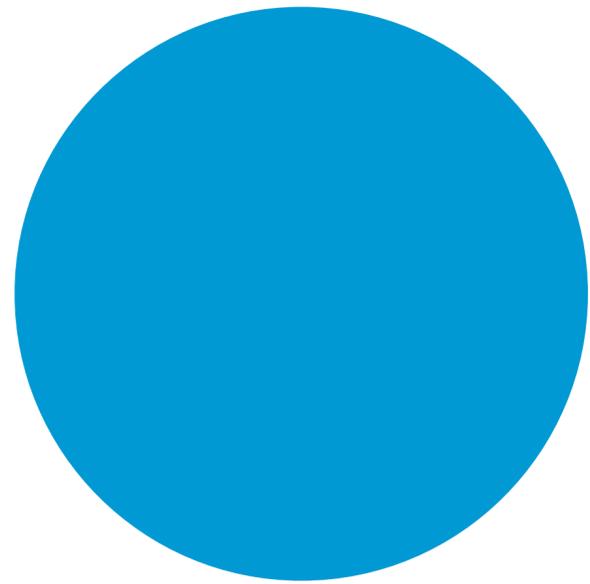

Too owl

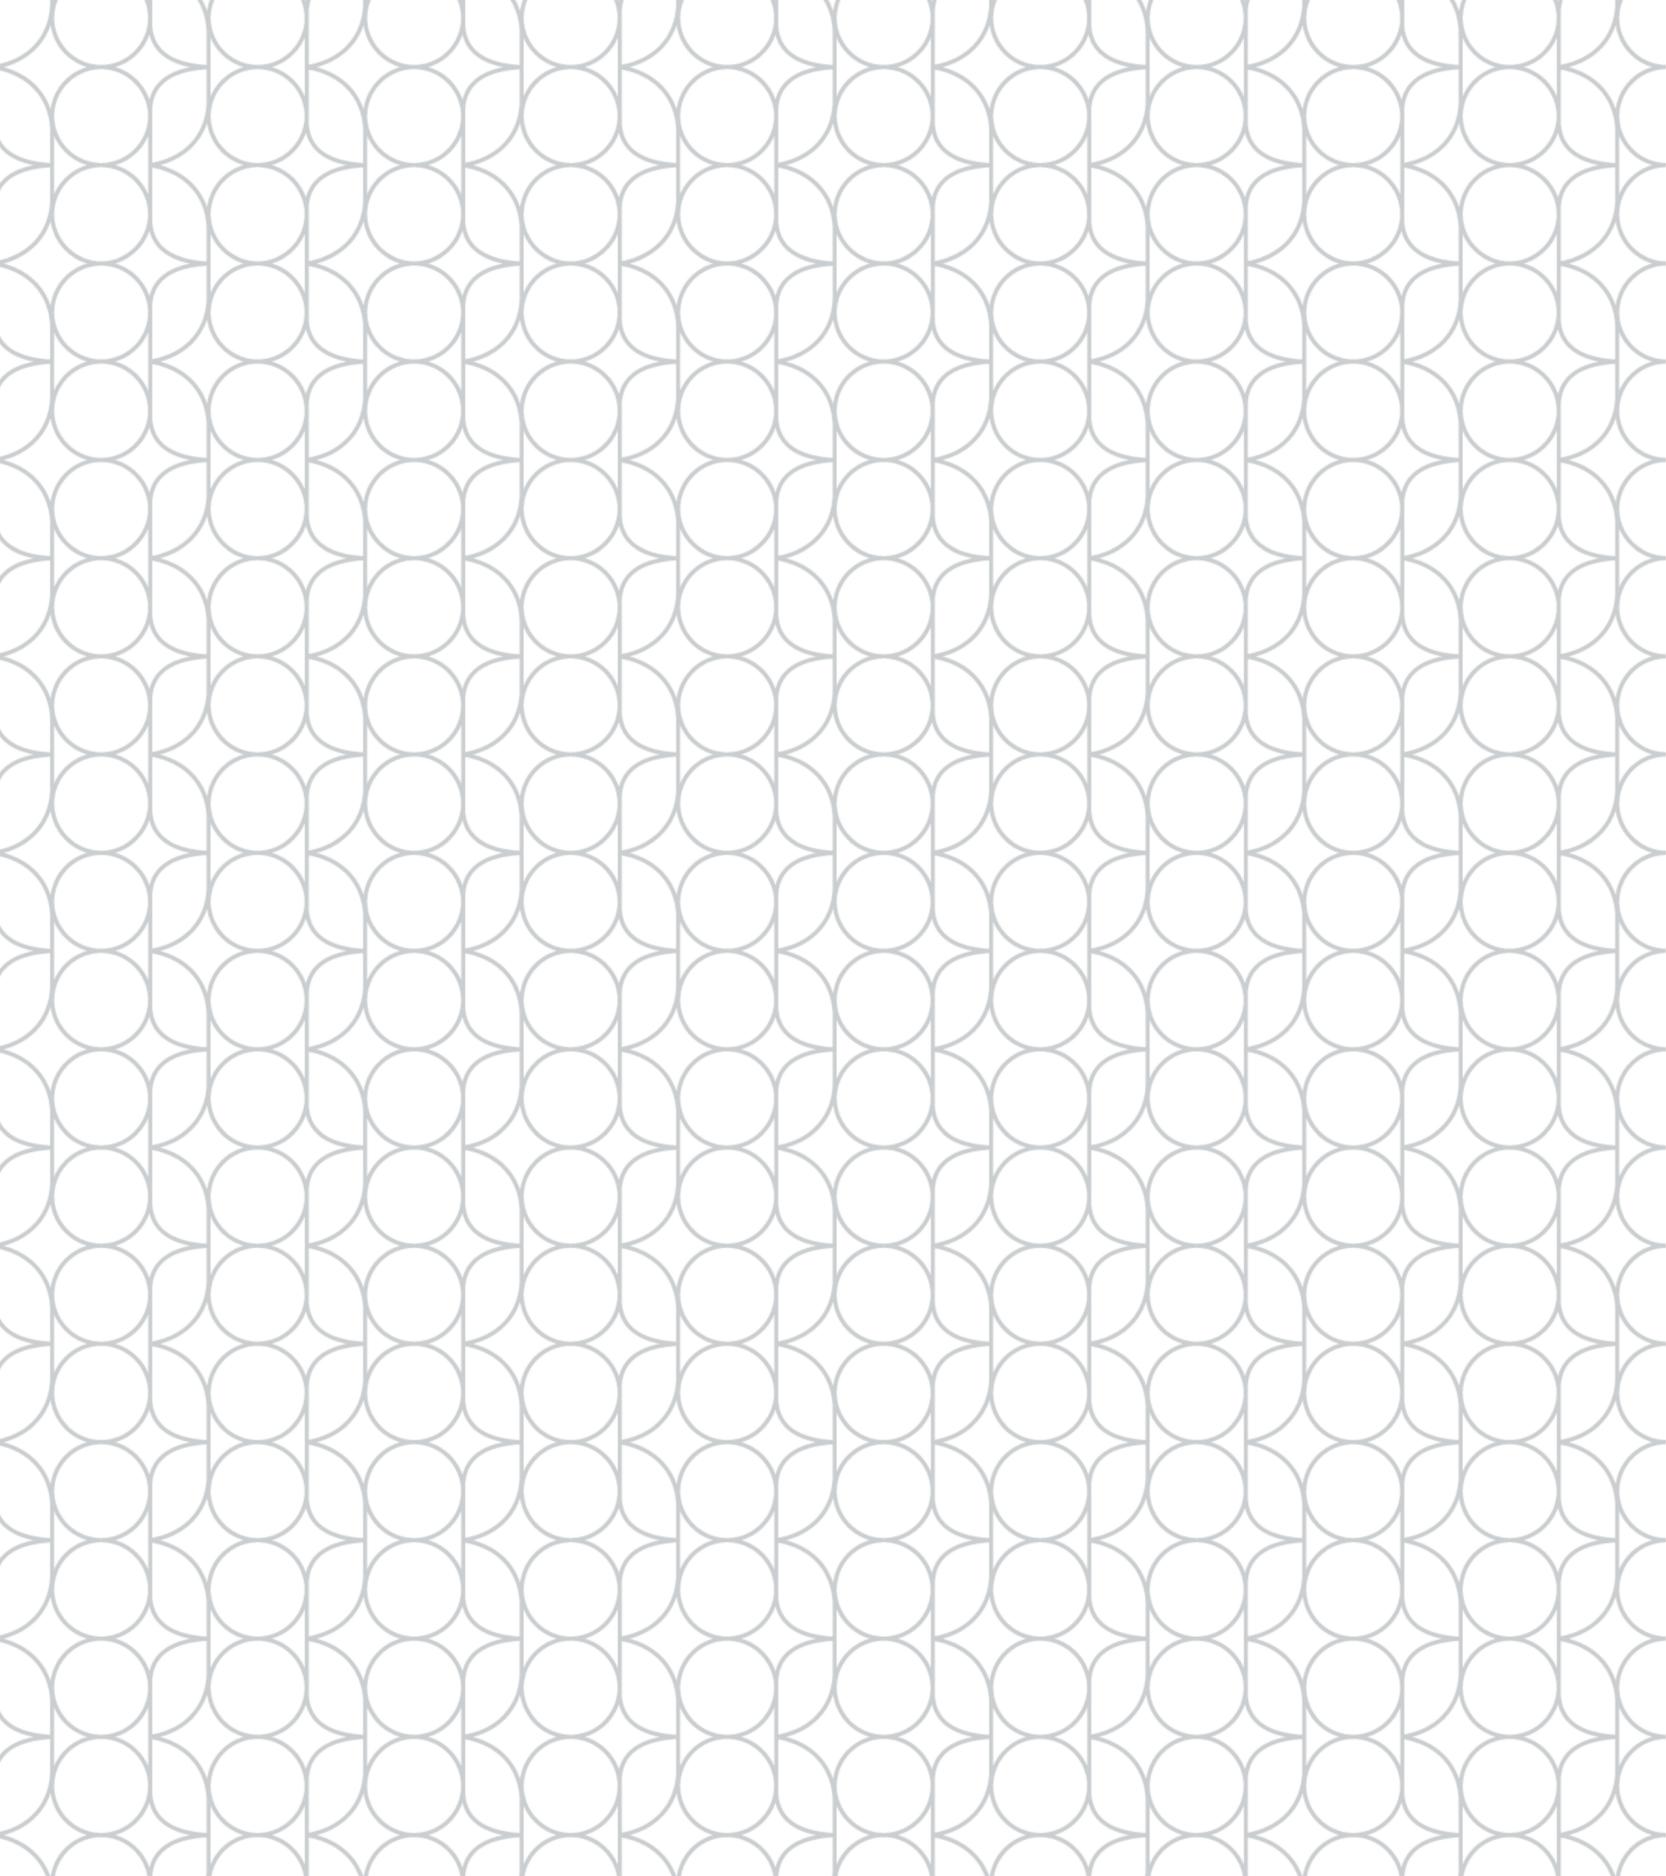

### **Redrawn typography**

Building on the original logo that used the free font Nexa, the new version has its own custom type that feels solid, established and ownable

### **Colors**

Shades of blue are comfortable colors for most people and are associated with safety.

## **Brand patterns**

Patterns as a safety net, inspired by security bars but maintaining human touch and playfulness. Use elements from the logo.
