- Adds Shine

pH: 4.5

REPARATIVE

Acidifier

*Salon
Only!*

Professional Only Color Protection:

Professional Acidifier has been developed to dramatically improve color services when chemicals have been used to swell open the cuticle. Once the cuticle has been opened during chemical services, it can take approximately 24 hours or more for the cuticle to return back to normal. Until then, hair is left in an extremely fragile state and susceptible to many damaging effects of the environment, styling, or even normal shampooing that can lead to dryness, unnecessary loss of color, and damage. Don't let an open cuticle destroy what you have worked so hard to create.

Acidifier is the perfect choice to gently seal and lock down the cuticle while also delivering an abundance of antioxidants for added health and protection.

- Formulated with ColorConstruct®
- Professional Color-Lock
- Powerful Antioxidants
- Prevents Oxidation
- Gluten-Free

pH: 3.0
