

# README

1. You need to install npm package. [get npm](#)
2. Runn the server.
  - cd "SmartTV's Folder path"
  - node server.js

A screenshot of a macOS terminal window. The title bar reads "SmartTV.framer — node server.js — 80x24". The terminal content shows a login message: "Last login: Tue Jan 9 09:23:13 on ttys000". The first command entered is "[tomdeiMac:~ tom\$ cd SmartTV.framer]", and the second is "[tomdeiMac:SmartTV.framer tom\$ node server.js]". The output of the second command is "Listening on 3000".

```
Last login: Tue Jan 9 09:23:13 on ttys000
[tomdeiMac:~ tom$ cd SmartTV.framer

[tomdeiMac:SmartTV.framer tom$ node server.js
Listening on 3000
```
