OUR DREAM

We dream of a church where Jesus Christ is at the center. He stirs in her a unique passion unfolding in life-changing preachings, powerful worship and overflowing creativity.

In this church, we celebrate and enjoy the relationship to our heavenly Father with enthusiasm and we get to know Him deeper and deeper in all His facets. We long for a church that is open to everyone. No matter where people come from and regardless of their history: here everyone finds a home.

This church is a family marked by unconditional love, unity and a serving leadership. The needs of society compel her to compassionate action. She is known for her generosity; looks towards the needs and not away from them.

We long to experience God's power. Knowing that all things are possible for God, we expect for the Holy Spirit to work amongst us and for us to experience His miracles. It is our passion to see a church that gives her very best for God, speaks the language of our time and sees herself as part of the solution.

In the church we dream of, many people find faith in Jesus Christ and become more and more like him. While this church is constantly growing, it is also getting more personal through small groups and has a positive influence on our families, friends, and society.

May God fulfill this dream through us.
